

Health, Safety, Security, Environmental & Quality Policy

Purpose

We execute our operations in a way that:

- Avoids harm and injuries to personnel, the environment and all assets
- Avoids work-related illness
- Ensures safe, compliant, and cost-effective operations

Objectives

We shall achieve this purpose by:

- Commitment and accountability from all employees and contractors
- Demonstrating good role model behaviour using our values to proactively embed HSSEQ in our activities
- Minimising risk of major accidents at all levels within the company
- Prioritizing and integrating HSSEQ in our goals, strategies, action plans, and performance agreements
- Contributing to reduce CO2 emissions and climate impact
- Assessing and managing security threats
- Commitment to Quality Management and Lean principles throughout the organization
- Assuring processes and measuring process performance and effectiveness
- Ensuring that strategic partnerships with contractors and suppliers create value

Commitment

I enable a safer AKER BP because:

- I live by our values
- I STOP unsafe work
- I comply with laws, regulations and internal processes
- I report all incidents and harmful conditions
- I continually improve HSSEQ, and share learnings
- I make risk- and fact-based decisions
