

TEMPORARY CHANGES TO SUPPLY BASE DELIVERIES DUE TO INCREASED SECURITY LEVEL

The security level describes predefined security measures that can be implemented to manage risk when the threat level is changing. There are four security levels beyond basic security: Blue (A), Yellow (B), Orange (C), Red (D).

- **Because of an increased threat level, Aker BP has decided to raise the security level to **YELLOW (B)** from Friday 7 October 2022 at 13:00 and until further notice.**

If there is a security incident or a general change in the threat level, it may be relevant to raise the security level, and new measures will be implemented.

To comply with increased security measures, we must increase the delivery deadlines according to the table below:

MAIN RULE	
Cargo that requires packing	10:00 the weekday before loadout* 09:00 the weekday before loadout*
Non-rental equipment in load carriers	15:00 the weekday before loadout* 12:00 the weekday before loadout*
Rental equipment in load carriers	10:00 the day of loadout 15:00 the day before loadout*
Backload notification	10:00 vessel departure date
EXEPTIONS	
Tubulars / OCTG according to load out plan.	By appointment with the Supply base
Food Containers	12:00 the day of loadout*
Temporary equipment w/o inspection as above	10:00 the day of loadout* 15:00 the day before loadout*
Dry- and wet bulk volumes confirmed	48 hrs before loadout* / backload.
Purchased equipment & materials	According to Purchase Order

*Loadout date = Shipping date in Kabil

Requirements

[Cargo Delivery Instructions](#) and [Packing and labeling instructions](#).

- Deliveries with obvious deviations according to Aker BP Cargo Delivery Instructions and amendments will be subject to rejection.
- Urgent unplanned cargo requirements will be evaluated, pending approval from AkerBP. Contact the responsible Supply Chain Responsible/ Logistics Coordinator.
