Rev.no.	Date	Description of Change
12.0	2024-09-23	We have changed verifier of the document from Edvin Danielsen to Emiko Margrete Larsen. We have added EX safety and awareness – petroleum industry and EX safety and awareness for Mechanical disciplines – petroleum industry to several roles. We have added 3 new competency roles to the document: HVAC technician, HVAC technician with electrical competence and Refrigeration technician.
11.0	2024-08-08	We have changed the qualifications description in Chapter 8.3.18 (Uncertified worker painting) to: Shall be qualified by contractor internal training and experience as described in NORSOK M-501:2022 (11.2), or FROSIO Certified operator according to "FROSIO Scheme for approval and certification of surface treatment operators"
10.0	2024-06-04	We have removed the Mod. O-1.1 G11 Lifting Equipment (alt. Module 1+2.3), and the Lifeboat Coxswain Conventional Basic course from chapter 8-1-12 Emergency response team NUI matrix. The first competence requirement was added to the matrix as a prerequisite for the FRC. Fast rescue Craft

		(small boat) requirement but has now been included in the course. The Lifeboat Coxswain Conventional Basic course has been removed as it was only a requirement on Hod, who will P&A in August 2024. We have removed the 5-year validity period for Mod. P-2.4 Simple Lifting Devices to none, as this will be refreshed through the Mod. P-4.4 Rigging requirement (5-year validity). We have changed the validity period for Mod. O-1.1 G11 Lifting equipment (alt. Module 1-2.3) from 5 to 4 years. The G4 Operator of bridge and overhead crane validity has been changed from no refresher requirement to have a 4-year validity. The competency may also be refreshed through an OJT KL_Traverskraner.
9.0	2024-05-30	We have changed the guideline number for Valve course (NOG 119) and Fittings and smallbore tubing systems (NOG 120) to NOG 143.
8.0	2024-05-08	In chapter 8.5.9 we have changed the role name from "Storekeeper" to "Material coordinator", to better align with Kahuna and the contract. We have also changed the IMDG requirement from "IMDG Dangerous goods by sea (1 day) for deck personnel" to IMDG Dangerous goods by sea (2 days) and added a Hazardous waste competence requirement to the role spec. (Re. Synergi # 277109)
7.0	2024-03-04	We have changed the competency requirement name "Ptil/IEC 61892" to "Havtil/IEC 61892". We have changed the competency requirement name "Fall protection, 4 hr internal course offshore or fall protection NS-9610 / NOG 113 (if applicable) to "Fall protection, NS-9610 / NOG 113 (if applicable)". In chapter 8.1.8 and 8.1.9 we have removed the G11 requirement as this is now included in the MOB boat training. We have changed the description for the rigger and lifting equipment course in chapter 8.3.2. We have translated the enkle løfteinnretninger competency into English. (Mod. P-2.4 Simple lifting devices). We have changed the competence name for Mod. O-1.1 Lifting equipment (alt. G11) to Mod. O-1.1 G11 Lifting equipment (alt. Module 1 + 2.3). In chapter 8.3.11 and 8.3.13 we have merged the Safety Supervisor – Rope access role with the Rope access supervisor role and adjusted the requirements to the Rope access supervisor and the Rope access technicians (chapter 8.3.14) to adhere with NS-9600:2020. We have removed the common requirements for well service roles (G4, G20, Deck Operator Certificate (optional) and VHF, since these are included in the relevant roles). We have removed the Truck certificate for all roles as this is no longer a requirement from Ptil. The Deck Operator Certificate (optional) has been changed from required to optional for all relevant roles. In chapter 8.4.5 we have replaced the LRA requirement with the LRA measurement course as reflected in Kahuna for Aker BP employees.
